Eleventh Street Community Garden Rules

This is an organic garden. No synthetic chemical pesticides, herbicides, fungicides or fertilizers are allowed. Seeds and plants do not need to be certified organic.

Certain plants are not allowed do to their tendency to spread aggressively and be difficult to remove. Currently prohibited plants are: mint, comfrey, and jerusalem artichokes.

Illegal plants are not allowed. Marijuana may be legal now but you can't grow it in this garden.

Gardeners **must** contribute time to the maintenance of the garden by participating in garden activities like planting, watering, weeding and harvesting, or maintenance of specific garden areas like composting, worm bins, the kids garden, mowing grass and work parties for specific projects.

Smoking, pets and amplified sound are prohibited.

Children must be supervised. Help them learn about gardening and boundaries.

Take your trash home for disposal.

You may garden in any daylight hours of any day.

Work parties may be organized as needed to complete specific tasks.

Proposed rules for the garden in 2015:

At the start of each garden season any interested members will meet to decide what to plant, how much of it to plant and where to plant it.

All members of the garden may harvest any of the crops whenever they wish.

On regularly scheduled work days part of the work will be harvesting anything that is ready. Gardeners may take what they want and the rest goes to the food bank, soup kitchens, etc.

Some crops may be harvested all at once such as garlic, potatoes, winter squash. Those will be divided among the garden members who want them.
